

Technical data sheet:

Mohawk Via Linen: *expressive colours and textures*

Mohawk Via Linen has a subtle, embossed pattern. This understated, refined surface offers exceptional ink holdout and the ability to handle a wide range of specialty print processes making it the perfect paper solution for all creative and graphical communication projects.

- Specified by the US print and creative communities for over 25 years
- Delivering Mohawk quality and performance at a budget-friendly price point
- Manufactured acid free to meet ANSI standards for archival permanence
- Excellent on-press performance – uniform, stable and consistent
- Available with i-tone surface technology for HP Indigo printing
- Manufactured with wind energy, produced carbon neutral and FSC certified
