TDS FILE PROTECTIVE PAPER 20g

SAP index PP20*

PRODUCT DESCRIPTION:

Protective paper for sublimation – protect your calender line from gassing inks

High quality kraft plain paper, 20 gr/m², used to protect the calender felt or press plate during the sublimation process.

APPLICATION:

Indicated for protecting the substrate used in transfer applications.

Prevents yellowing of white synthetics during the transfer process.

PROPERTIES	TEST METHOD	METRIC / IMPERIAL
Total weight	PN-ISO 536	20g/m ²
Tolerance of weight	N/A	+1.5 g/m ² - 1.5 g/m ²
Tensile breaking strength	PN-EN ISO-1924-2	MD 1.6 [kN/m] CD 0.72 [kN/m]
Tearing resistance	PN-EN 21974	MD 100 [mN] CD 150 [mN]
Elongation	PN-EN ISO-1924-2	MD 1.9 [%] CD 1.4 [%]
Air resistance	5636-5	105
Moisture	EN 20287	7 [%]
Core diameter		76 mm / 3 inch
Width Available	DIN EN ISO 3759, ASTM D751	165 cm, 320cm
Standard Weight	DIN EN ISO 3759, ASTM D751	30, 60, 120 kg
