

23. January 2024

REACH

MM BOARD & PAPER manufactures articles. These do not require a registration according to REACH Regulation (EC) 1907/2006 as amended.

We closely evaluate supplier declarations and material composition. Therefore, we can state that for our articles' production we solely use substances or mixtures, which are compliant with requirements laid down in the REACH Regulation. Article 33(1) requires a supplier to inform its customers if an article contains a substance on the Substances of Very High Concern (SVHC) Candidate List (last amended 23rd January 2024) in excess of 0.1% (weight by weight). We hereby state, that SVHC are not present above the limit of 0.1% in any of our products.

Under Articles 67 and 56, substances listed in Annex XVII and Annex XIV are restricted for use or require an authorization prior to use. To the best of our knowledge there are no known Annex XVII restricted substances or Annex XIV substances subject to authorization contained in our products.

We are continuously monitoring new substances that are being added to the Registry of SVHC intentions and will undertake the necessary steps in case a substance contained in our products appears in there.

On behalf of
MM BOARD & PAPER

Dr. Sigrid Gerold
Head of Group Product Safety
